

Tammi Hampton Taylor has been a North Carolina Certified Peer Support Specialist since 2013 and worked as a peer support specialist with Mental Health Greensboro for seven years. After graduating from the University of North Carolina at Chapel Hill 1992 with a degree in sociology, her focus has been on emotional and mental wellness. Tammi has facilitated several support groups in her career and those groups continue to grow in popularity in the community. She's been married to Lloyd Taylor for 26 years as of 2022 and together they have raised a wonderful son and a dynamic daughter. Tammi is a huge Prince fan, and I am excited to be a part of The Kellin Foundation family.
